

Q'Max Solutions Inc. Press Release:

In the September issue of “Alberta Venture” magazine you will see Q'Max Solutions Inc. featured as one of the 19 newcomers to the “Venture 100”. The list was compiled with the assistance of PriceWaterhouse Coopers, based on the fiscal 2009 year. In last year’s edition, Q'Max was ranked number 122, and placed in the “Next 100” category. Since then we have made great strides despite the economic recession, and moved our way up to number 93. We are also proud to boast our spot as number 20 on the “PriceWaterhouse Coopers Private 50” list.

The purpose of publishing this data is to inform readers on where Alberta’s leading public and private companies are right now, and where we can expect them to be in the coming year. Surprisingly, many of the Venture 100 companies, like Q'Max, are taking an aggressive approach to business in 2010 and remain focused on growth and seizing opportunities that lie ahead, versus remaining in the defense zone as they have in past.

Although the total revenues that made up this year’s “Venture 100” came in at 29% lower than the previous year, Q'Max is pleased with our company’s ability to continue to thrive during these turbulent times. We have full confidence that growth will continue at an aggressive pace in 2010.
